

Unofficial

The ~~Official~~ SharePoint Feature Comparison Chart

With every SharePoint version release, Microsoft improves upon the platform with new features that enable seamless collaboration, optimized management, and more. That being said, it's time to get to know some of the newer features.

The Unofficial SharePoint Feature Comparison Chart is designed to help you assess unique features across every SharePoint version, so you can determine where you might need to go. Regardless of your source or destination, Metalogix makes complex migrations simple to execute. **Learn more at www.metalogix.com/IM.**
